

Coil Washer / Maintenance Labor

Shift: 1st 7a-3:30p (OT shift is 5a-3:30p)

Position Description:

Provides support to neighboring departments and operation of coil washer in addition to meeting the needs of press operator. Employee will be required to work in coordination with first shift team lead to accomplish company goals in the creation of additional machine capacity. Employee must be able to process internal customer orders on time and in a manner directed by Operations Manager and press team operator.

Job Duties:

- Pull coils from press department, use hoist to move coils to washer, and set up on washer to be cleaned
- Must be able to read and interpret work orders to ensure coils are washed in the proper orientation
- Must be able to use a computer to enter basic information about current job orders
- Must be able to routinely lift and manage 100lbs
- Fork Truck license and experience required
- Personal transportation required
- Monitor for material and process quality

Benefits:

- Medical after 90 days
- Dental after 90 days
- 401k after 1 year
- PTO/Vacation after one year
- Profit sharing opportunities at the end of each year
- \$100 voucher towards safety toe shoes after 1-month employment and free uniforms after 1 month employment.

Employment requirements:

Employee must be able to pass drug screening and must have machine operator experience.
